From Madison.

I THE SENTINEL. Madison, Feb. 19, '52. There was a good time yesterday in the Senate upon the series of Buncombe resolutions introduced a formight since by Dr. Huebschmann. In order that the matter may be the better understood, I copy the preamble and resolutions referred

Whereas, it is the popular belief that a political party continued for a long time in the ascendency, and the individuals elected by the same to office, are apt to become corrupt and to use their power to the detrinent of the people; and whereas, this popular belief has been made use of, and the charge of corruption has been made generally upon the party heretofere in the ascendency in the state by their opponents, and particularly in relation to the management of the school fund, and.

Wherear, his Excellency the Governor has recommended that an examination should not be delayed, whether loans have been made upon monificient scentifies, and whereas the members of the legislatine elected in opposition to the party heretofore in power, and chosen by the people with the expectation, that the corruption so generally changed would be exposed by them, have studiously avoided, in referring the different subjects contained in the Governor's message, to touch the above recommendation, and whereas the expectations of the people in relation to this subject should not be disappointed; therefore be it Resolved. That the members of this body elected in opposition to the party heretofore in power in this State, are hereby appointed a committee to ascertain whether the complaints made in relation to the lonning of the school fund "are with or without truth," and to report such a change in the prepent system of leaning the school fund as in their opinion will be most conducive to the pathic welfare.

Resolved, That said committee have power to send for persons and papers.

send for persons and papers. These were had on the table at the time, and the gentlemen of the majority were felicitating themselves on the fact that the challenge was thrown down, and the minority declined taking it up. Ten days had elapsed without the author of the resolution calling them up, when, yesterday afternoon to the atter dismay of the majority, Dr. West, of Wankerlia, called them up, and overed the following plain, straightforward sub-

The refore Resolved. That the Senate appoint— the House concurring—a select committee, to consist of three members from each body, with instructions to institute, at as early a time as they may deem expedient and proper, a thorough and impartial insestigation of the whole matter rela-ting to the official acts of the late board of school land commissionars, and report the same in time, that the present legislature may take the proper action thereon. ection thereon.

Recolved, That the committee be, and they are hereby authorized to examine books and send for per one and papers.

A warm debate ensued, in which Messes: Al-

ban, Stewart, West and Sharpstein participated The objects of the original resolution were signally exposed, and the ayes and noes put on record The vote on the substitute was as follows:

Aves-Meers, Allan, Conkey, Pinchney, Pron-re, Stenart, Turner and West-7. Novs-Meers, Bennett, Bowen, Bugh, Dean, tuch-chinann, Reed, Sharpstein, Squires and Huebschmann, Reed, Sharpstein, Wright--9. Whige in italies.

Then Mr Sharpstein moved to lay the preamble and resolutions on the table, and those who voted in the affirmative were Messes, Bennett, Bowen, Rugh, Conkey, Dean, Reed, Sharpstein, Squire-Turner, Wakeley and Wright-11. Those who voted in the negative were Messis.

So the "democratic" majority, after all their

bluster, refuses the examination asked for by the minority. The difficuties in the Milwaukee charter, as t

the time of going into effect de, were corrected this morning by unanimous instructions of the enrolling committee to make the bill go into effect at once, and requiring but six days notice of the election.

Various petitions and remonstrances for against the re-election of the old Board of Commissioners of Public Works, were read. They were all from Columbia county. The remonstrants express their intention to furnish reasons for their action to the appropriate committees.-They are, so far, outnumbered by the petitioners for the re-election, and both have special reference to Mr. Croswell.

A bill has been introduced to organize Kewaynee County, out of the south part of Door County. There don't appear any particular necessity of it, so far as appears upon its face, but some reasons may be given when the bill comes up.

The joint committee, Messrs, Bennett, Conger and VanOstrand, appointed to examine into unitters relative to the location and building of the State Prison, took leave vesterday afternoon.-What their discoveries may be I dont know, but I do know that the Commissioners have acted, if not with entire propriety, certainly in cotire accorduces with former precedent in this State, in expending some \$12000 on an appropriation of

It has also in different stages, 20 general, and 21 local bills, most of which have gone through the committee of the whole. It has also passed 4 memorials, and one set of joint resclutions, originating in its own body. The Sen ate has also passed 45 local and 5 general bills from the Assembly, has under consideration in various stages, 24 local and 8 general bills, and has killed 8 Assembly bills. Three memorials

from the Assembly have also passed. In the House 219 bills have originated, and i has passed of these 73 local and 16 general bills. Of bills first passed in the Senate, the House has passed 33 local and 2 general bills; 14 hay gone through the Committee of the whole, 7 have been killed, and 12 are in the hands of committees or laid on the table. Errors excepted, then, the summary of business

The wind means through the deserted halls o the Legislature-or would mean if the windows rere only thrown open. About half a dozen o the members are seated at their desks, writing letters, arranging papers, &c., and the place looks doleful enough. The Charter was put through its last stage,

early this morning, and is now the law. It is to hoped that the people of our goodly city will ce that it begins its operation under the right auspices, and that none but honest, capable, and aithful men are chosen to administer its duties. Quite a discussion arose in Assembly upon a solution of Mr. Lawrence, to have the furnaces topped, and the stoves put up in the Chamber.-Messrs, Donaldson, Peak Root, Mott, Wood, Hoyt and others expressed their opinions that the air n the Hall is the cause of the illne-s of so many f the members, though they differed as to the recise difficulty. Certain it is, that the air is so lry as to be totally unfit for respiration. The natter was left in charge of a committee, who vill probably find some means of changing the arrangements se as to increase the comfort and health of members when they return.

As was to be expected, some of the papers, paricularly some of those published here, are scolding ienfully, for the benefit of timid people, about the rece-s. It is wrong and unfair, in my judgmen to state the matter as they do. They speak of the members having done but little, having occupied but two or three hours per day, &c. &c. The harges are untrue, and the record shows that the Legislature has applied itself to business with unwearied industry. Afternoon sessions nearly lev ery day, and the hardest possible work upon con nittees. It is time that much of it has been local

legislation and this is the six, not of the present ent Legislature, but of all our legislative bodies The fact is underiable that the members have airly carned their holiday, it in no other way, by the work they have done on Saturday afternoons and business is so far advanced that it can be speedily finished up, when the members come back fresh from their "resting spell." I say resting spell; for, mark, very few of them go to Milwankee to enjoy its hospitalities; not because they do not appreciate the invitation, but because they feel the want of rest, and have gone home to get it. Another fact is worth mentioning-that the various motions to purchase charts, copies of papers, &c., from proprietors of papers here, have occupied almost as much time as the recess. It is an easy matter to get these resolutions introduc ed, and the discussions upon them cost about a much as the documents themselves; but member

Not are all Irishmen, (as good as the General penhaps,) ready to agree with him that Irchard's misiotunes are owing entirely to England's misule. An Irishman (in whose breast the love of his mative land burns with a flane as constant as it is bright) told me just now, that the fault was the people's, and not the government. It would seem to have been the policy of England rather to encourage emigration, until the South of Ireland should become almost depopulated, and millions have have their horses in that quarter and lauried. The hit told, and is supposed to have consider able truth, it not much poetry about it. You will have noticed in the Argus and Dem crat the charge against Ex-Secretary Barstow and his reply. The charge referred to-that of loaning some \$350 of school money to his brother on insufficient security, and not recording the abandoned their bomes in that quarter, and hurried ortgage for nearly a year-is the one to which mortgage for nearly a year—is the one to which all freferred to some time since. It was made with all its specifications, and is answered with distinctness. The assessments of the lots at \$35 is not denied, but affidavits of respectable persons still continue almost unimpaired in numbers and e given, to the effect that they are worth over \$700. People differ in their ideas as to the value if real estate; for instance, I have conversed vith citizens of Wankesha, who place a vastly inferior estimate upon the said lots. But the Ex-

The first despatch is from Mr. Webster to Mr. Lawrence, dated Dec. 3, instructing the American Minister to inquire whether the conduct of the captain of the brig Express, was in consequence of instructions from his Government, and rote-ting against the outrage. Several dispatches follow, in which the British

Secretary requests a delay until he neceives a report from the Admiral of the station. On the 10th of January Lord Granville address d the following letter to Mr. Lawrence, viz:

The undersigned, her Britannic Majesty's Secretary of State for Foreign Affairs, has the honor to acquaint Mr. Abbot Lawrence, Enroy Extraordinary and Minister Plenipotentiary to the United States of America, that her Majesty's Government have just received from the Vice Admiral commanding her Majesty's naval forces in the West Indies, a report upon the subject of the Promethous, which is to the following effect: That on arriving at St. Thomas, the Admiral received a dispatch from the commander of her Majesty's Jong Express, stating that on the requisition of Mr. James Green, her Majesty's Consul at Greytown, who is also a principal officer of the Mosquito government at that place, he had, by force, compalled the American steamer Prometheus to pay the part dues demanded of her by the authorities of Greytown. To this dispatch Vice Admiral George Seymour had immediately replied by saying that neither he nor, to his knowledge her Majesty's consul had received any orders to allow her "Majesty's ships to be employed in such service, or in enforcing the fiscal regulations of Mosquito the sole object of the presence of a British ship of war at Greytown being to defend the town and inhabitants from aggressive attempts to deprive the Mosquito Government of possession pending a settlement by negotiation of the question relative to its future position. Sir Geo, Seymour had further expressly forbidden the commander of the Express from again capleving force to compell the levy of duties for the Mosquito Government.

The undersigned has now to state to Mr. Abbott Lawrence, for the information of his government, that her majesty's government fully approve of the vice Admiral's conduct in this matter, and that they entirely distroy whe act of violence committed by the commander of the Express, and also the requisition from her Majesty's Cousal, under which the commander acted, so far as he acted by any arthority derived from the British crown.—Under these circumstances, hen Majesty's government do so without any loss of time, and immediately upon the receipt of the official intelligence above alluded to, inasmuch as in their opinion it would be unworthy of the government of a great nation to hesitate about making due reparation when the acts of their subordinate authorities have been such as not to admit of juriediction.

The Hunkers Making Fight.

The Madison Argus comes to the rescue of its funker voke-fellow, the Commercial and declares var against the "Democracy" of this city, for heir presumption in going in for "a new deal," and another Delegate to Politimore. We multi-b the Argen article, not that we put any faith in its tatements, but that our City Democracy may see what their Hunker friends in the country say of

them:

Isn'r ir Queen?—Judge Miller, Judge of the District Court of the United States for Wisconsin, as we learn, has jumped square into the political areas for his favorite, Mr. Buchanan, for the Presidency. As Mr. Buchanan, when Secretary of State, was the means of his appointment (both being Penasylvanians,) it may be natural enough that the Judge should feel for his patton and friend; but now it looks queer for a Judge to be medilling in the matter of our State Delegates, and drawing un resolutions for the distraction of and drawing up resolutions for the distraction of and drawing up resolutions for the distraction of the Democratic party, merely to test his gratitude for many inventions received? We learn from Milwankee, that the Judge was at the bottom of the late little conclave there, which resolved in favor of "a new these terrible consequences? Marcy? No. Cas? He is not even "a second or third-rate general." Dickinson? By no means. Buchan-other Pennsylvania lawyer made himself quite configuous by introducing Judge Miller's resolution for that purpose. Now, we have nothing to say against Mr. Buchanan. He is an eminent member of our party, and entitled to consideration as one of the candidates taiked of for the Presidency; but his wire-working instruments in Wisconium may be more profitably employed than intempting to create distraction in the democratic sician: consin may be more profitably employed than in attempting to create distraction in the democratic ranks for his particular aid. The idea of any new deal is too ridiculous for serious thought, any where; and we think we are too well informed of the entire satisfaction of the mass of the democracy of the first district, in the appointment of Judge Bryan as a Delegate, to believe it possible that the least objection has ever been raised to him among any of the sound and reliable of the party there. The late little spiteful effort in the city, for a new deal, is entirely confined to Milwaukee, and may all be truced to some two or three misnd may all be traced to some two or three this chierous individuals, elaiming to belong to the democratic party there; and this is all there is of it. Ninety-nine out of a hundred, there as here, and every where, we do really believe, discountenance the whole affair as an unmitigated humburg.

This morning at 6 o'clock, the fine three story This morning at 6 o'clock, the fine three story brick Floming Aill at this place, owned by Messrs Sheetz & Lerch, fell to the ground. The building is a total loss. The greater part of the machinery will probably be saved. The circumstances of the destruction of the building are, as we have been informed, as follows:

The situation of the mill is near the river on low ground, and when the carth was removed to commence the stone foundation, it was discovered that a bed of "quick sand" lay at no very great depth from the surface. However, timbers were put in and the foundation surrosed to lave been

depth from the surface. However, timbers were put in and the foundation supposed to have been structed. The Mill has been standing something over three years, and it seems that the water has been gradually removing the bed of sand upon which the foundation stool. Two years ago a portion of the foundation settled and cracked the walls of the building fearfully, but they were secured for the time being by means of running heavy iron but strongh the building, and putting clamps on the road outside the walls, and screwing them up. After repairing it thus, the building the building the building the surface was the surface was the surface was the building the surface was the building the surface was the surf elamps on the road outside the walls, and strewing them up. After repairing it thus, the building seemed to be firm and substantial, but the recent thaw and freshet hastened the undermining.

Last night about 11 o'clock the Mill stepped
running, and the Millers, after several ineffectual
attempts to start it, left it, and went home to wait
for day-light to examine it, supposing something
was in the wheel. This morning, on ariting at
the premises, they found the building level with
the ground, the iron ties and banes causing it to
fall at once, so that there is scarcely one brick
upon another.—Providentially there was no one
in the building at the time it fell; the circumstance
of the machinery stopping before the building
fell, sweed the lives of the millers. The bed in
which they were accustomed to sleep in the Mill,
was erushed to atoms.

was crushed to atoms.

A dog that belonged to the Mill was taken out of the mins this morning, and manifested his entire satisfaction at being relieved from his situation by many mute expressions of joy.

There was about three thousand bushels of wheat and quite a quantity of floar in the Mill, the greater part of which will be saved. The loss is great to the owners, and will be severely felt by our town and surrounding country.

The is not difficult to foresee that the day would not be distant when the Democrats of the Union would have to storm the Federal Capital and bring the traitors to the Constitution to justice, or clae throw themselves into the camp, sword in hand, and right the battle of the outraged South.—

[Democratic Review.]

When, reader, do you suppose this dreadful contingency is to happen? When, think you, it will become the duty of the "Democratic of the Union" to "storm the Capital," "bring the traitors to justice," and "sword in hand, fight the battles of the outraged South?" Why—don't laugh—when Gen. Sout is elected President of the United States! Who, after this, will venture to advocate the nomination of "old Churubus-

ture to advocate the nomination of " old Chumbus.

sician:-At a trial in the Court of King's Bench, June At a trial in the Court of King's Bench, June, 1833, betwirst certain publishing tweedlednins and tweedleders, as to the alleged piracy of an arrangement of the "Old English Gentleman"—an old English air, by-the-bye—Cooke was subpensed as a witness. On his cross-examination by Sir Jas Scarlet, afterward Lord Abinger, for the opposite side, that learned coursel rather dippantly questioned him thus:—
"Now sir, you say the two melodies are the same, but different.

Sic Janus—"What is musical accent?"

Cooke—"My terms are a guinea a lesson, sir."

Gooke—"My terms are a guinea a lesson, sin."
(A loud laugh.)
Sie James (rather raftled)—"Never mind your terms here. I ask you what is musical accent?—
Can you see it?"
Cooke—"No."
Sie James "Geo you feel is you.

Sic James—"Can you feel it?"
Cooke—"A musician can." (Great laugh-Sir James (very angry)—"Now, pray sir, don't beat about the bosh, but explain to his lordship and the jury, who are supposed to know nothing about music, the meaning of what you call active.

Cooke—"Accent in music, is a certain stress laid upon a particular note, in the same manuer as you would lay a stress upon any given word for the purpose of being better understood. Thus, if I were to say, You are an ass—it tests on ass; but I were to say, You are an ass—it rests on you

Reiterated shouts of laughter by the whole court, in which the bench itself joined, followed this re-

partee.
Silence having been at length obtained, the Judge with much seeming gravity, accosted the chop-fallen counsel thus:—
Lord Denma"—"Are you satisfied, Sir James?"
Sir James (deep ted as he naturally was, to use poor Jack Recre's own words, had become scarlet in more than name,) in a great huff, said—
"The witness may go down."

Double Taxes.—The injustice of compelling

Double: Takes—The injustice of compelling the owner of a mortgaged estate to pay full taxes upon it, and at the same time taxing the mortgage for the amount of his mortgage as personal property, has often been remarked. A bill has been introduced into the Legislature of New York to remedy this evil. The bill, says the Journal of Commerce, "requires the owner of the property to pay taxes on the full valuation, but requires the tax-collector to give him a receipt, stating what portion of the tax belonged to the mortgage, or to each mortgage, if there be more than one, which receipt shall be a legal tender in payment of the interest or principal of such mortgage or mortgages respectively. And the same in the case of any other lien."

Town AND COUNTY ELECTIONS.—Old Mont-gomery has elected six out of the ten Whig Su-pervisors. St. Johnsville, Feb. 10.

We held our town meeting in this town to-day, and have elected Stone R. Haight, Supervisor, by 23 majority. The usual Loco majority is 125. Our Clerk, De Witt Failing, is elected by 49 majority, also Whig. This is not all—we shall elect a Whig in this town for the next five years.—

Col. BENTON AGAINST KOSSUTH.-The St. Louis Republican has the following pangraph:—
"It is now well known that Col. Benton ha distinctly arowed himself opposed to Kossuth's proposition of the intervention of our Government in the affairs of Europe. He has denomined it openly and publicly; and hence the fluttering and "shaking in the shoes" of the faithful here We do not pretend to know how far the pani has spread; but it is evident to a mere casua observer, that there is a great "caving in" among the boisterous and "undaunted."

Signor Patti has published a card in New York, denying a report that his daughter Amalia is married to Strakosch, the planist. Of course not. Strakosch would not many little Patti; and little Patti would not many Strakosch! We ought to say we know several ladies who would mary S., and several gentlemen who would contract with Patti.—Detroit Free Press.

BOSION AND ALBANY RAILBOAD.—The seventh annual report of the Directors of the Western Railboad, showing the receipts, expenditures and general condition of the Corporation for the year ending Nov. 30th, 1831, has just been received. This is considered, and very justly, too, the model road of the United States, so far as to its general management, and the precision with which the trains are run from station to station. The Albany Evening Journal remarks that one might venture to set his watch with the amonucements of the trains, at this end of the line, so regular are the annuals. The income of the road for the year was as follows:

Washington, Feb. 11, 1852.

There seems to be every probability that long before the Philadelphia Whig Convention assembles, all interest in it will have entirely departed, so far as the selection of a candidate is concerned. It is plain enough already, that a moened public sentiment will only look to that Convention to enunciate a foregone conclusion. The aspect of affairs in the North, South, East and West, and the drift and tone of things here, all point with unerring certainty to this result. Gen. Scott will walk over the course.—Cor. M. Y. man, are well known. In all cases, he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 356, says, "It has been question whether artificial digestion could be performed—but it is now universally admitted that it may be."

De. Carpetter's standard work on Physiology, which is in the library of every Physician, and is used as a Tert-Book in all the College, is full of evidence similar to the agore, respecting the remarkable Digestive power of Pepsian, and the fact that it may be readily separated from the stomach of the calfer or, and used for experiments in Artificial Digestion, or as a remedy for discover of the Stomach, and decident secretion of Gastrie Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictonaries, describe the character and properties of Parsas, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastrie Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder it, that it has not before been applie to the cure of indigention and Dyspepsia—so naturally does such a use suggest teelft the mind.
